April 2023 - Present

#### Junior Business Analyst ( Thai & English Speaker )

*Blue Stone Solution*

- responsible in a microfinance project.
- work closely with clients and senior Business Analyst to ensure the requirements
- provide the project requirements to developer team
- do analyze and manual testing

## **REASON FOR CHANGING JOB POSITION**

As the current unstable situation in Myanmar and the challenges faced by fresh graduates in securing developer positions, I have been working as a Business Analyst. But now I want to change my career as a developer because of my interest in coding. With my passion, adaptability and technical skills, I believe that I could give my best and be a good resource of your organization.

## **SCHOOL PROJECTS**
