SCHOOL PROJECT

Travel Recommendations Application

- It is my final year project which is developed by using React Native and Firebase.
- consult with supervisor and rector to define the scope of the project, set goals and determine the features that might be included in the app.
- collect data on destinations, accommodations, local foods, and restaurants.
- give seminars and discuss about the functionality and features of the app with teachers, students and the rector to ensure it is user-friendly.

EMPLOYMENT HISTORY
